Location: Roorkee, Uttarakhand
Type of Appointment: Full-Time (Initial 3-month probation; renewable up to 1 year).
Duration: Initially, it will be 1 year (renewable based on performance).
Compensation: **₹9 – ₹18 LPA** for each position.
Company: **AARTI Foundation** (A Section 8 – Not for Profit Company)

About the Company

- AARTI Foundation is a company that was incorporated under Section 8 of the Companies Act, 2013.
- AARTI Foundation, the industry accelerator of IIT Roorkee, established in collaboration with ICAT, is committed to driving innovation-led entrepreneurship, accelerating startup growth, deploying impactful technologies, and fostering inclusive development through rural empowerment, women-centric initiatives, and industry-academia collaboration.
- AARTI aims to enable and promote new technology/knowledge/innovation-based start-ups, build a start-up ecosystem by establishing a network between academia, financial institutions, industries and other institutions, provide training and certification services, and offer services to start-ups, such as mentoring, legal, financial, technical services and enhance competencies, capacity building, training to nurture innovation and start-ups, and awareness and executive training programs.
- All the activities related to the company are governed by its own separate Board of Directors.

1. CEO of the Company will be responsible for:

Operations Management

- Supervise the day-to-day administrative and operational functions of the Foundation.
- Establish systems and processes to streamline workflows, reduce redundancies, and enhance internal coordination.

Financial Management

- Oversee budgeting, financial planning, audit readiness, and grants management in compliance with donor and regulatory requirements.
- Ensure transparent and responsible financial stewardship across all units and projects.

Partnership Development

- Build and maintain strategic relationships with stakeholders across government, CSR entities, academic institutions, and NGOs.
- Leverage partnerships for co-creation, capacity building, and policy advocacy.

Procurement & Infrastructure

- Lead the development and implementation of procurement policies and practices aligned with statutory norms and ethical standards.

- Oversee infrastructure development, asset management, and logistical operations across the field and headquarters offices.

Legal, Compliance & Governance

- Ensure organisational compliance with all statutory regulations, including FCRA, CSR regulations, labour laws, and financial audits.
- Support the Managing Director and Board with timely documentation, reports, and compliance disclosures

Fundraising & Donor Engagement

- Lead institutional fundraising initiatives, including CSR engagement, philanthropic partnerships, and proposal submissions to multilateral and bilateral agencies.
- Manage donor communications, reporting, and grant utilisation frameworks to ensure impact accountability.

Core Requirements

Qualifications

- Master's degree in commerce/business administration/public policy/finance, or a related field.

Experience

- **10 years** of professional experience.
- Demonstrated **international industrial experience.**
- Demonstrated ability to build partnerships with MSMEs and industries.
- Experience in managing fundraising and finance.
- Understanding of financial implications on the Section 8 company.
- Strong hold over vendor and contract management, vetting of MoUs, Liaisoning with the Government and Industry

*Preference will be given to candidates with experience working in top government agencies or 30 NIRF-2025 ranked institutions, and below 35 years of age.

The profile of the CEO is expected to be as follows:

- Strong leadership and organisational management skills.
- Financial acumen and understanding of statutory and regulatory frameworks.
- Excellent interpersonal and communication skills.
- Ability to work collaboratively with multidisciplinary teams.
- High integrity, transparency, and commitment to the vision and mission of the organisation.
- Ability to interact comfortably with eminent and senior academic/corporate/administrative personalities and other stakeholders.
- Should be willing to travel extensively.

2. **CTO of the Company will be responsible for:**

Technology Strategy & Leadership

- Develop and implement the Foundation's technology vision in alignment with its mission and long-term goals.
- Guide strategic initiatives in precision manufacturing, electric mobility, and next-generation technologies.

- Provide thought leadership in emerging domains and ensure the Foundation remains at the forefront of innovation.

Innovation, Product Development & Validation

- Lead prototyping, field validation, and pilot testing of technological solutions.
- Oversee product pipelines from concept to deployment, focusing on scalability and user-centric design.
- Ensure seamless integration of interdisciplinary research into practical solutions for social and environmental challenges.

Training & Capacity Building

- Design and oversee structured training programs in technical domains such as **EV systems, precision manufacturing, IoT, AI/ML, and prototyping.**
- Ensure training initiatives are inclusive, hands-on, and tailored to diverse beneficiary groups, including students, grassroots innovators, and rural entrepreneurs.
- Develop train-the-trainer models to extend impact across regions and sectors.

Collaboration & Partnerships

- Build and manage partnerships with academic institutions, industry leaders, startups, and government bodies to foster innovation and joint R&D efforts.
- Facilitate technology transfer agreements and co-development initiatives.
- Foster a dynamic and purpose-driven workplace through team leadership.

Policy and Proposal Management

- Ensure smooth implementation of internal and external policies, with periodic review and alignment with sectoral standards.
- Lead proposal development and donor engagement to ensure program sustainability and growth.

Core Requirements

Qualifications:

- PhD in Mechanical Engineering/Automobile Engineering with a specialisation in Advanced Manufacturing Processes/Mechatronics/Automation, preferably from top 20 ranked NIRF-2025 Institutes of India.

Experience:

- 3+ years of industry experience.
- Proficiency in machine development, CAD/CAM software, material testing and characterisation, and microcontroller programming.
- Expertise in advanced manufacturing processes, AI/ML, additive manufacturing, mechatronics/automation, and simulation tools.
- Experience in handling government-funded projects.
- Proven research output by SCI publications (5+) and Patents (filed/granted).

*Preference will be given to the candidate with experience in PSU/Government/Research Organisation/Industry and exposure to the Manufacturing Industry/Automation/Heavy Engineering & Machine Tools field, and below 35 years of age.

The profile of the CTO is expected to be as follows:

- Documentation writing to support intellectual property development.
- Strong strategic thinking and execution capabilities.
- Excellent interpersonal, leadership, and communication skills.

- Ability to manage ambiguity and drive results in a mission-oriented environment.
- Ability to interact comfortably with eminent and senior academic/corporate/administrative personalities and other stakeholders.
- Should be willing to travel extensively.
- High integrity, transparency, and commitment to the vision and mission of the organisation.

3. COO of the Company will be responsible for:

Strategic Leadership

- Lead the development and execution of operational strategies in alignment with organisational goals.
- Translate the organisation's vision into actionable programs, ensuring delivery on impact, scale, and quality.
- Contribute to the strategic planning process and decision-making at the executive leadership level.

Program Implementation & Innovation

- Oversee all programmatic initiatives to ensure efficient execution, evaluation, and scalability.
- Lead innovation cohorts, startup incubation efforts, and rural development programs, with a strong inclusion lens.
- Coordinate closely with the team members to ensure integration between operations, technology, and finance.

Partnership Development

- Build and maintain strategic relationships with stakeholders across government, CSR entities, academic institutions, and NGOs.
- Leverage partnerships for co-creation, capacity building, and policy advocacy.

Human Resource & Organisational Development

- Guide HR strategy and organisational culture to support innovation and equity.
- Foster a dynamic and purpose-driven workplace through capacity building and team leadership.

Policy and Proposal Management

- Ensure smooth implementation of internal and external policies, with periodic review and alignment with sectoral standards.
- Lead proposal development and donor engagement to ensure program sustainability, growth, and impact.

Core Requirements

Qualifications

- Master's degree in any discipline, with demonstrated experience in gender equity, rural or community work, program implementation, organisational building and team management.
- Professional certifications, such as Mass Communication and professional leadership training programs, are desirable.

Experience

- **7+ years** of progressive experience in program management, stakeholder engagement, organisational development, and multi-stakeholder project execution in NGO/NPO.

- Knowledge of implementing CSR-funded social impact initiatives focusing on community engagement and field-level implementation.
- Proven track record of managing cross-functional teams, overseeing complex projects, and driving measurable outcomes in underserved regions.
- Understanding of the social implications of technological advancements.
- Adept at aligning organisational goals with field realities, ensuring scalable and sustainable outcomes through data-driven decision-making and collaborative leadership.
- Understanding of the governing mechanisms of a Section 8 company and the CSR laws of India.
- Proficient in Microsoft Office Suite, Salesforce Data Management, and Event Planning.
- Strong command of project documentation, safeguarding standards, and compliance protocols for programme implementation in a Section 8 company.

The profile of the COO is expected to be as follows:

- Strong strategic thinking and execution capabilities.
- Excellent interpersonal, leadership, and communication skills.
- Deep understanding of rural innovation ecosystems, social entrepreneurship, and inclusive policy implementation.
- Ability to manage ambiguity and drive results in a mission-oriented environment.
- Ability to interact comfortably with eminent and senior academic/corporate/administrative personalities and other stakeholders.
- Should be willing to travel extensively.
- High integrity, transparency, and commitment to the vision and mission of the organisation.
- Understanding Rural Development, Social Entrepreneurship, Gender Equity and creating inclusive ecosystems.

*Preference will be given to the candidate with experience working in a top government department/agency or the top 20 NIRF-2025 ranked institutions, and below 35 years of age.
